Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

School Board Brandon Valley School District No. 49-2 Minnehaha County, South Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Brandon Valley School District No. 49-2, South Dakota (School District), as of June 30, 2022, and for the year then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated February 14, 2023, which was qualified because the School District did not adopt Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

Independent Auditor's Report on Compliance for each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

School Board Brandon Valley School District No. 49-2 Minnehaha County, South Dakota

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Brandon Valley School District No. 49-2, South Dakota (School District), compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2022. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Current Audit Findings and Questioned Costs.

In our opinion, the Brandon Valley School District No. 49-2 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of School District's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report on
 internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of
 expressing an opinion on the effectiveness of the School District's internal control over compliance.
 Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purposes. As required by South Dakota Codified Law 4-11-11, this report and our report on compliance for each major federal program are matters of public record and their distribution is not limited.

Independent Auditor's Report

School Board Brandon Valley School District No. 49-2 Minnehaha County, South Dakota

Report on the Audit of the Financial Statements

Qualified Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Brandon Valley School District No. 49-2, South Dakota (School District), as of June 30, 2022, and for the year then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinions" section of our report, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the capital outlay, special education, bond redemption, and capital projects governmental funds, and food service and other enterprise, enterprise funds of the Brandon Valley School District No. 49-2 as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified Opinions

The School District did not adopt Government Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities, which is a departure from accounting principles generally accepted in the United States of America (USGAAP). The amount by which this departure would affect the assets, liabilities, net position, revenues, and expenses/expenditures of the governmental activities, the general governmental fund, and the aggregate remaining fund information is not reasonably determinable.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (*Government Auditing Standards*), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the School District's ability to continue as a going concern for a reasonable
 period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (MD&A), the Budgetary Comparison Schedules, the Schedule of the School District Contributions, and the Schedule of the School District's Proportionate Share of the Net Pension Liability (Asset), and Schedule of Changes in Total OPEB Liability be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The Schedule of Expenditures of Federal Awards, which as required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 14, 2023 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering School District's internal control over financial reporting and compliance.

Management's Discussion and Analysis (MD&A)
June 30, 2022

As management of Brandon Valley School District No. 49-2 (School District), we offer readers of the School District's financial statement this narrative overview and analysis of the District's financial performance during the fiscal year ended on June 30, 2022. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which follow this section.

Financial Highlights

- During the year, the School's revenues of \$60,150,678 generated from taxes and other revenues of the
 governmental and business-type programs were \$5,106,532 more than the \$55,044,146 in governmental
 and business-type program expenditures. The total cost of the School's programs increased 13.63% over the
 prior year. Approximately \$1.2 million of the revenues over expenditures is due to the increase in revenue
 from state sources.
- The first two statements are government-wide financial statements that provide both long-term and short-term information about the School's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the School government, reporting the School's operations in more detail than the government-wide statements.
 - The governmental fund statements tell how general government services were financed in the short-term as well as what remains for future spending.
 - Proprietary fund statements offer short- and long-term financial information about the activities that the school operates like businesses. The proprietary funds operated by the school are the Food Service Operation (Fund 51), and Drivers Education (Fund 53).
 - Fiduciary fund statements provide information about the financial relationships in which the School acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

Figure A-1 summarizes the major features of the School's financial statements, including the portion of the School government covered and the types of information contained. The reminder of the overview section of the management's discussion and analysis explains the structure and contents of each of the statements.

Management's Discussion and Analysis (MD&A) June 30, 2022

Management's Discussion and Analysis (MD&A)
June 30, 2022

Government-Wide Statements

The government-wide statements report information about the School as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the School's net position and how they have changed. Net position is one way to measure the School's financial health or position.

- Increases or decreases in the School's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the School you need to consider additional nonfinancial factors such as changes in the School's property tax base and changes in the state school aid funding formula from the State of South Dakota.

The government-wide financial statements of the School are reported in two categories:

- Governmental Activities This category includes the School's basic instructional services, such as
 elementary and high school educational programs, support services (guidance counselor, executive
 administration, board of education, fiscal services, etc.), debt service payments, extracurricular activities
 (sports, debate, music, etc.) and capital equipment purchases. Property taxes, state grants, and federal
 grants finance most of these activities.
- Business-type Activities The school charges a fee to students to help cover the costs of providing breakfast
 and hot lunch services to all students. The Food Service Fund and the Enterprise Funds (Drivers Ed) are the
 only business-type activities of the School.

Fund Financial Statements

The fund financial statements provide more detailed information about the School's most significant funds – not the School as a whole. Funds are accounting devices that the School uses to keep track of specific sources of funding and spending for particular purposes.

- State Law requires some of the funds.
- The School Board establishes other funds to control and manage money for particular purposes.

Management's Discussion and Analysis (MD&A)
June 30, 2022

The School has three kinds of funds:

- Governmental Funds Most of the School's basic services are included in the governmental funds, which focus on (1) how cash and other financial assets that can readily converted to cash flow in and out and (2) the balances left at the year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental fund's statements, or on the subsequent page, that explains the relationship (or differences) between them.
- Proprietary Funds Services for which the School charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both short- and long-term financial information. The Food Service and Drivers Education Enterprise funds are the only proprietary funds maintained by the School.
- Fiduciary Funds The School is the trustee, or fiduciary, for various external and internal parties. The School is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the School's fiduciary activities are reported in a separate statement of net position and a statement of changes in net position. We exclude these activities from the School's government-wide financial statements because the School cannot use these assets to finance its operations.

Management's Discussion and Analysis (MD&A)
June 30, 2022

Financial Analysis of the School as a Whole

Net Position

The School's combined net position increased as follows:

Restatement		(848,194)				(848,194)	
Increase (Decrease) in Net Position	\$ 6,884,038	\$ 4,065,445	\$ 888,347	\$ 1,041,087	\$ 7,772,385	\$ 5,106,532	-34.30%
Percentage of Increase (Decrease) in Net Position	13.89%	7.31%	86.59%	54.39%	15.36%	8.88%	

The District's combined net position of approximately \$62.6 million is approximately \$4.2 million or 7.3% more than on June 30, 2021. Most of the increase is due to the increase in revenue from state sources and operating grants and contributions.

The Statement of Net Position reports all financial and capital resources. The statement presents the assets, deferred outflows of resources, liabilities and deferred inflows of resources in order of relative liquidity. The liabilities with average maturities greater than one year are reported in two components – the amount due within one year and the amount due in more than one year. The long-term liabilities of the school, consisting of compensated absences payable, early retirement payable, leases, bonds, and capital outlay certificates have been reported in this manner on the Statement of Net Position. The difference between the school's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is its net position.

Management's Discussion and Analysis (MD&A)
June 30, 2022

Changes in Net Position

The district's total revenues (excluding transfers) totaled \$60,150,678 (See Table A-4). This was approximately a 7% increase. Approximately 40% of the district's revenue comes from property and other taxes, with another 39% from state aid. (See Table A-2.)

Table A-2

Governmental Activities

Increase in the governmental expenses was 13.65%, mainly due to instruction and support services.

Business-Type Activities

Net position of the School's business-type activities increased approximately by \$1 million.

Management's Discussion and Analysis (MD&A)
June 30, 2022

Financial Analysis of the School's Funds

Overall, the governmental funds remained about the same with a 170 thousand dollar increase in fund balance over last year.

General Fund Budgetary Highlights

Over the course of the year, the School Board revised the School budget several times. These amendments fall into three categories:

- Supplemental appropriations and contingency transfers approved for unanticipated, yet necessary, expenses to provide for items necessary for the education program of this district.
- Increases in appropriations, primarily by contingency transfer, to prevent budget overruns.

There were budget changes for the year due to needing additional funding for general operating expenses in the General Fund.

Capital Asset Administration

By the end of FY 2022, the School had invested \$69,959,318 (net of depreciation) in a broad range of capital assets, including, land, buildings, various machinery and equipment. (See Table A-5.)

Table A-5

This year's capital asset purchases of \$3,975,748 included construction in progress for the elementary school.

Management's Discussion and Analysis (MD&A)
June 30, 2022

Long-Term Debt

At year-end, the School had \$39,539,055 in general long-term obligations. See individual balances as shown on Table A-6 below.

Table A-6
BRANDON VALLEY SCHOOL DISTRICT NO. 49-2 - Outstanding Debt and Obligations

	Governmental Activities				Business-type Activities						Total Dollar Change	Total Percentage Change		
		2021		2022	_	2021			2022		2	021 - 2022	2021 - 2022

Economic Factors and Next Year's Budgets And Rates

One of the primary sources of revenue to the School is based on a per student allocation received from the State of South Dakota.

The school's enrollment for the last 3 years was as follows:

Year	ADM	(Decrease) in
2022	4842	3.42%
2021	4682	5.86%
2020	4423	4.24%

Contacting the School's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the School District's finances and to demonstrate the School District's accountability for the money it receives. If you have questions about this report or need additional information, contact the Brandon Valley School District's Business Office, 300 S. Splitrock Boulevard, Brandon, SD 57005.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position – Governmental Funds
June 30, 2022

Total Fund Balances - Governmental Funds	\$ 19,081,014
Amounts reported for governmental activities in the statement of net position are different because:	
Net pension (asset) reported in governmental activities is not an available financials resource and therefore is not reported in the funds.	7,817,535
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	69,308,250
Pension & OPEB related deferred outflows are components of related assets and therefore are not reported in the funds.	11,997,974
Pension & OPEB related deferred inflows are components of related liabilities and therefore are not reported in the funds.	(15,912,372)
Delinquent taxes receivable not available to pay current year expenditures are deferred in the funds	10,807,312
Long-term liabilities, including bonds payable, other post employment benefits, and accrued vacation are not due and payable in the current period and therefore are not reported in the funds.	(39,539,055)
Accrued interest payable is accounted for in the Statement of Net Position but is not accounted for in the modified accrual basis of accounting.	(74,447)
Bond premiums, which are not accounted for in the governmental funds, are accounted for in the Statement of Net Position.	(3,818,750)
Net Position-Governmental Funds	\$ 59,667,461

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities – Governmental Funds

For the Year Ended June 30, 2022

Net Change in Fund Balances - Total Governmental Funds	\$ 169,696
Amounts reported for governmental activities in the statement of activities are different because:	
This amount represents capital asset purchases which are reported as expenditures on the fund financial statements but increase assets on the government wide statements.	3,486,270
This amount represents the current year depreciation expense reported in the statement of activists which is not reported on the fund financial statements because it does not require the use of current financial resources.	(4,226,791)
Payment of the principal on long-term debt is an expenditure in the governmental funds but the payment reduces long-term liabilities in the statement of net position.	2,599,086
In both the government-wide and the fund financial statements, revenues from property tax levies are applied to finance the budget of a particular period. Accounting for revenues from property tax accruals in the funds' statements differs from the accounting in the government wide statements in that the fund financial statements require the amounts to be "available". This amount reflects the application of both the application period and "availability criteria".	(142,383)
Governmental funds recognize expenditures for amounts of compensated absences and early retirement benefits actually paid to employees with current financial resources during the fiscal year. Amounts of compensated absences earned by employees are not recognized in the funds. In the statement of activities, expenses for these benefits are recognized when the employees earn leave credits or elect to retire early.	(382,399)
Changes in the pension related deferred outflows/inflows are direct components of pension liability (asset) and are not reflected in the governmental funds.	2,230,574
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. Accrued interest increased during the year by:	7,854
When bonds are issued there can be a deferred outflow of resources. This deferred outflow resources consists of a loss on refunding which is amortized over the life of the bonds issued. The amount of amortization during the year is:	323,538
Change in Net Position of Governmental Activities	\$ 4,065,445

Notes to the Financial Statements June 30, 2022

1. Summary of Significant Accounting Policies:

a. Financial Reporting Entity:

The reporting entity of Brandon Valley School District No. 49-2, consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments, and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility, even though those fiduciary funds may represent organizations that do not meet the criteria for inclusion in the financial reporting entity); those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

The School District participates in a cooperative service unit with several other school districts. See detailed note entitled "Joint Ventures" for specific disclosures. Joint ventures do not meet the criteria for inclusion in the financial reporting entity as a component unit, but are discussed in these notes because of their nature of their relationship with the School District.

The accounting policies of the School District conform to generally accepted accounting principles as applicable to government entities in the United States of America.

b. Basis of Presentation:

Government-Wide Financial Statements:

The Statement of Net Position and the Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between the governmental and business-type activities of the School District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position reports all financial and capital resources, in a net position form (assets and deferred outflows minus liabilities and deferred inflows equal net position). Net position is displayed in three components, as applicable, net investment in capital assets, restricted (distinguishing between major categories of restrictions), and unrestricted.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Notes to the Financial Statements June 30, 2022

1. Summary of Significant Accounting Policies: (Continued)

Fund Financial Statements:

The fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the School District or it meets the following criteria:

- Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- 2. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined, or
- 3. Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

The funds of the School District financial reporting entity are described below within their respective fund types:

Governmental Funds:

General Fund – A fund established by South Dakota Codified Laws (SDCL) 13-16-3 to meet all the general operational costs of the School District, excluding the capital outlay fund and special education fund expenditures. The General Fund is always a major fund.

Special Revenue Fund Types – Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Outlay Fund – A fund established by SDCL 13-16-6 to meet expenditures which result in the lease of, acquisition of or additions to real property, plant or equipment, textbooks and instructional software. This fund is financed by property taxes. This is a major fund.

Special Education Fund – A fund established by SDCL 13-37-16 to pay the costs for the special education of all children in need of special assistance and prolonged assistance who reside within the School District. This fund is financed by grants and property taxes. This is a major fund.

Capital Projects Funds – Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds)

Notes to the Financial Statements
June 30, 2022

1. Summary of Significant Accounting Policies: (Continued)

The Capital Projects Fund is the only capital projects fund maintained by the School District. This is a major fund.

Debt Service Fund Types – Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Bond Redemption Fund — A fund established by SDCL 13-16-13 to account for the proceeds of a special property tax restricted to use for the payment of principal and interest on general obligation bonded debt. This fund is the only debt service fund maintained by the School District. This is a major fund.

Proprietary Funds:

Enterprise Funds — Enterprise funds may be used to report any activity for which a fee is charged to external users for goods and services. Activities are required to be reported as enterprise funds if any one of the following criteria is met:

- 1. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government of component unit even if that government is not expected to make any payments is not payable solely from fees and charges of the activity. (Some debt may be secured, in part, by a portion of its own proceeds but should be considered as payable "solely" from the revenues of the activity.)
- 2. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.
- 3. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Food Service Fund – A fund used to record financial transactions related to food service operations. This fund is financed by user charges and grants. This is a major fund.

The Other Enterprise Fund - A fund used to record financial transactions related to driver's education conducted for the benefit of the children This fund is financed by user charges. It is a major fund.

Notes to the Financial Statements
June 30, 2022

1. Summary of Significant Accounting Policies: (Continued)

Fiduciary Funds:

Fiduciary Funds consist of the following sub-categories and are never considered to be major funds:

Custodial Funds – custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. The School District maintains custodial funds to hold assets as an agent in a trustee capacity for various classes, clubs, and so on.

c. Measurement Focus and Basis of Accounting:

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

Measurement Focus:

Government-Wide Financial Statements: In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

Fund Financial Statements: In the fund financial statements, the "current financial resources" measurement focus and the modified accrual basis of accounting are applied to governmental funds, while the "economic resources" measurement focus and the accrual basis of accounting are applied to the proprietary and fiduciary funds.

Basis of Accounting:

Government-Wide Financial Statements: In the government-wide Statement of Net Position and Statement of Activities, governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets generally are recorded when earned (usually when the right to receive cash vests); and expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

Fund Financial Statements: All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, generally are recognized when they become measurable and available. "Available" means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period does not exceed one bill-paying cycle, and for the Brandon Valley School District No. 49-2, the length of that cycle is sixty days.

Notes to the Financial Statements June 30, 2022

1. Summary of Significant Accounting Policies: (Continued)

Under the modified accrual basis of accounting, receivables may be measurable but not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Unavailable revenues, where asset recognition criteria have been met, but for which revenue recognition criteria have not been met, are reported as a deferred inflow of resources.

Expenditures generally are recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which are recognized when due.

All proprietary and fiduciary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

d. Interfund Eliminations and Reclassifications:

Government-Wide Financial Statements:

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund balances in the fund financial statements have been eliminated or reclassified, as follows:

1. In order to minimize the grossing-up effect on assets and liabilities within the governmental and business-type activities columns of the primary government, amounts reported as interfund receivables and payables have been eliminated in the governmental and business-type activities columns.

e. Deposits and Investments:

For the purpose of financial reporting, "cash and cash equivalents" includes all demand and savings accounts and certificates of deposit or short-term investments with a term to maturity at date of acquisition of three months or less. Investments in open-end mutual fund shares, or similar investments in external investment pools, are also considered to be cash equivalents.

Investments classified in the financial statements consist entirely of certificates of deposit whose term to maturity at date of acquisition exceeds three months, and/or those types of investment authorized by South Dakota Codified Law (SDCL) 4-5-6.

f. Capital Assets:

Capital assets include land, buildings, machinery and equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

Notes to the Financial Statements June 30, 2022

1. Summary of Significant Accounting Policies: (Continued)

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Financial Statements:

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at the estimated fair value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location and condition for use. Subsequent to initial capitalization, improvements or betterments that are significant, and which extend the useful life of a capital asset are also capitalized.

For governmental activities capital assets, construction-period interest is not capitalized, in accordance with USGAAP, while for capital assets used in business-type activities/proprietary fund's operations, construct period interest is capitalized in accordance with USGAAP.

The total June 30, 2022 balance of capital assets for governmental activities includes approximately 1 percent for which the costs were determined by estimates of the original costs. The total June 30, 2022 balance of capital assets for business-type activities are all valued at original cost. These estimated original costs were established by appraisals or deflated current replacement cost.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the government-wide Statement of Activities, with net capital assets reflected in the Statement of Net Position. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	Capitalization		Depreciation	Estimated
	Th	reshold	Method	Useful Life
Land	\$	100		
Buildings	\$	10,000	Straight-line	5-50 years
Building Improvements	\$	10,000	Straight-line	5-40 years
Improvements other than buildings	\$	10,000	Straight-line	5-40 years
Machinery and equipment	\$	1,000	Straight-line	5-15 years
Electronics, Computers, Cameras, etc.	\$	500	Straight-line	4 years
Food Service Machinery and Equipment	\$	1,000	Straight-line	12 years

Land, an inexhaustible capital asset, is not depreciated.

Notes to the Financial Statements June 30, 2022

1. Summary of Significant Accounting Policies: (Continued)

Fund Financial Statements:

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital expenditures of the appropriate governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide statements.

g. Long-Term Liabilities:

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities consist primarily of compensated absences, early retirement payable, other postemployment benefits, capital outlay certificates payable, and general obligation bonds payable.

In the fund financial statements, debt proceeds are reported as revenues (other financing sources) and payment of principal and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund statements as it is in the government-wide statements.

h. Program Revenues:

In the government-wide Statement of Activities, reported program revenues derive directly from the program itself or from parties other than the School District's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

- 1. Charges for services These arise from charges to customers, applicants, or others who purchase, use or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services.
- 2. Program-specific operating grants and contributions These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.
- 3. Program-specific capital grants and contributions These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

Notes to the Financial Statements June 30, 2022

1. Summary of Significant Accounting Policies: (Continued)

i. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Activities, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

j. Cash and Cash Equivalents:

The School District pools its cash resources for depositing and investing purposes. The enterprise funds have access to their cash resources on demand. Accordingly, all reported enterprise funds deposits and investment balances are considered to be cash equivalents for the purpose of the Statement of Cash Flows.

k. Equity Classifications:

Government-Wide Financial Statements:

Equity is classified as Net Position and is displayed in three components:

- 1. Net Investment in Capital Assets Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- 2. Restricted Net Position Consists of net position with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
- 3. Unrestricted Net Position All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

Fund Financial Statements:

Governmental fund equity is classified as fund balance, and may distinguish between Nonspendable, Restricted, Committed, Assigned or Unassigned components. Proprietary fund equity is classified the same as in the government-wide financial statements. Fiduciary fund equity is reported as net position restricted for individuals, organizations, and other governments.

I. Application of Net Position:

It is the School District's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Notes to the Financial Statements
June 30, 2022

1. Summary of Significant Accounting Policies: (Continued)

m. Deferred Inflows and Deferred Outflows of Resources:

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent consumption of net position that applies to a future period or periods. These items will not be recognized as an outflow of resources until the applicable future period.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent acquisitions of net position that applies to a future period or periods. These items will not be recognized as an inflow of resources until the applicable future period.

n. Fund Balance Classification Policies and Procedures:

In accordance with Government Accounting Standards Board (GASB) No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the School District classifies governmental fund balances as follows:

Nonspendable – Includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.

Restricted – Includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed – Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end.

Assigned – Includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted nor committed. Fund Balance may be assigned by School Board.

Unassigned – Includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The School District uses restricted amounts first when both restricted and unrestricted fund balance is available unless there are legal documents that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the Government would first use assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The Government does not have a formal minimum fund balance policy.

Notes to the Financial Statements
June 30, 2022

1. Summary of Significant Accounting Policies: (Continued)

The purpose of each major special revenue fund and revenue source is listed below:

Major Special Revenue Fund Revenue Source

Capital Outlay Fund Taxes
Special Education Fund Taxes

o. Pensions:

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pension, and pension expense (revenue), information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deletions from SDRS's fiduciary net position have been determined on the same basis as they are reported by SDRS. School District contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

p. <u>Leases</u>:

The School District is a lessee for a noncancellable lease of computer equipment. The School District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The School District recognizes lease liabilities with an initial, individual value of \$45,000 or more.

At the commencement of a lease, the School District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the School District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The School District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the School District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the School District is reasonably certain to exercise.

The School District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Notes to the Financial Statements
June 30, 2022

2. Deposits and Investments, Credit Risk, Concentrations of Credit Risk and Interest Rate Risk:

The School District follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

Deposits – The School District's deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 13-16-15, 13-16-15.1 and 13-16-18.1. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100 percent of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank's public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Investments – In general, SDCL 4-5-6 permits school funds to be invested in (a) securities of the United States and securities guaranteed by the United States government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a); or in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) and repurchase agreements described in (b). Also, SDCL 4-5-9 requires that investments shall be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent.

Interest Rate Risk – The School District does not have a formal investment policy that limits investment maturities as a mean of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – State law limits eligible investments for the School District, as discusses above. The School District has no investment policy that would further limit its investment choices. As of June 30, 2022, the school did not have investments.

Concentration of Credit Risk – The School District places no limit on the amount that may be invested in any one issuer. As of June 30, 2022, the School District did not have investments.

Assignment of Investment Income – State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The School District's policy is to credit all income from deposits and investments to the fund making the investments except the Special Revenue funds. USGAAP, on the other hand, requires income from deposits and investments to be reported in the fund whose assets generated the income. Where the governing board has discretion to credit investment income to a fund other than the fund that provided the resources for investment, a transfer to the designated fund is reported. Since pooling was done to maximize cash management, the interest income for the various special revenue funds was directly recognized in the General Fund. Such amounts were not material to the individual funds.

Notes to the Financial Statements June 30, 2022

3. Property Tax:

Property taxes are levied on or before each October 1, attach as an enforceable lien on property, and become due and payable as of the following January 1, and are payable in two installments on or before the following April 30 and October 31. The county bills and collects the School District's taxes and remits them to the School District.

School District property tax revenues are recognized to the extent that they are used to finance each year's appropriations. Revenue related to current year property taxes receivable which is intended to be used to finance the current year's appropriations, but which will not be collected during the current fiscal year or within the "availability period" has been deferred in the fund financial statements. Property tax revenues intended to finance the current year's appropriations, and therefore susceptible to accrual, has been reported as revenue in the government-wide financial statements, even though collection will occur in a future fiscal year.

4. Receivables and Payables:

Receivables and payables are not aggregated in these financial statements. The School District expects all receivables to be collected within one year. Amounts receivable and due from other governments include reimbursements for various programs. These amounts include \$2,987,336 for due from the state or federal government.

5. Inventory:

Inventory held for resale is stated at the lower of cost or market. The cost valuation method is the first in, first out method. Donated commodities are valued at estimated market value based on the USDA price list on the date of receipt.

In the government-wide financial statements and in the enterprise fund financial statements, inventory items are initially recorded as assets and charged to expense in the various functions of government as they are consumed.

In the governmental fund financial statements, inventories consist of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are consumed. Reported inventories are equally offset by a nonspendable fund balance. No material inventories were on hand at June 30, 2022, for the governmental funds.

Notes to the Financial Statements

Compensated absences for governmental activities typically have been liquidated from the General and Special Education Funds.

Notes to the Financial Statements
June 30, 2022

7. Long-Term Liabilities: (Continued)

Debt Payable at June 30, 2022 is comprised of the following:

General Obligation Bonds:

The School District issued \$14,110,000 of General Obligation Crossover Refunding Bonds, Series 2016. The bonds are payable on March 17, 2016 through December 15, 2027 with fixed interest rates from 3.0% to 4.0% that vary depending on the term of maturity. The Bond Redemption Fund makes payment on this debt.

\$ 9,380,000

The School District issued \$5,165,000 of General Obligation Bonds Crossover Refunding, Series 2017. The bonds are payable on November 22, 2017 through June 30, 2034 with fixed interest rates from 2.00% to 3.00% that vary depending on the term of maturity. The Bond Redemption Fund makes payment on this debt.

4,385,000

The School District issued \$15,525,000 of General Obligation Bonds, Series 2019. The bonds are payable on November 13, 2019 through August 1, 2039 with fixed interest rates from 3.00% to 5.00% that vary depending on the term of maturity. The Bond Redemption Fund makes payment on this debt.

15,290,000

Capital Outlay Certificates:

The School District issued \$8,155,000 of Capital Outlay Refunding Certificates, Series 2014. The certificates are payable on February 6, 2014 through August 1, 2033 with fixed interest rates from 0.300% to 3.950% that vary depending on the term of maturity. The Capital Outlay Fund makes payment on this debt.

835,000

The School District issued \$4,600,000 of Crossover Partial Advance Refunding Certificates, Series 2017. The bonds are payable on November 9, 2017 through June 30, 2034 with fixed interest rates from 2.00% to 3.00% that vary depending on the term of maturity. The Capital Outlay Fund makes payment on this debt.

4,600,000

Early Retirement:

Obligation to individuals who fall under the early retirement plan of the Brandon Valley School District. Payments are made to the retiree at the retiree's discretion. The General Fund makes payments on this obligation.

472,902

Compensated Absences:

Payments for vested accrued vacation leave from the fund from which the employee is generally compensated.

46,542

Other Postemployment Benefits:

Obligation to individuals who are retired or will retire from the School District and will receive postemployment benefits. The General Fund makes payments on this obligation.

3,733,263

Direct Borrowing Notes:

The School District entered into a lease initially for \$1,190,434 payable in four equal payments of principal and interest totalling \$402,300. The interest rate for this lease is 0.69%. Final maturity of the lease is July 5, 2023. The Capital Outlay Fund makes payments on this obligation.

\$ 796,348

Total Restricted Ne	\$ 20,600,255	

9. Interfund Transfers:

Transfers to/from other funds at June 30, 2022, consist of the following:

Transfer from the Capital Outlay Fund to the	
General Fund under the allowable percentage	
permitted by SDCL 13-16-6 to supplement the	
General Fund Balance with unused Capital Outlay	
Funds.	\$ 900,000
Transfer from the Capital Projects Fund to the Bond	
Redemption Fund to close the Capital Projects	
Fund.	\$ 581,440

10. Pension Plan:

a. Plan Information:

All employees working more than 20 hours per week during the year, participate in the South Dakota Retirement System (SDRS), a cost-sharing, multiple employer defined benefit pension plan administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability, and survivor benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering and amending plan provisions are found in SDCL 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at http://www.sdrs.sd.gov/publications/ or by writing to the SDRS, P.O. Box 1098, Pierre, SD 57501-1098 or by calling (605) 773-3731.

Notes to the Financial Statements
June 30, 2022

10. Pension Plan: (Continued)

b. Benefits Provided:

SDRS has three different classes of employees, Class A general members, Class B public safety and judicial members, and Class C Cement Plant Retirement Fund members.

Members that were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirements that do not meet the above criteria may be payable at a reduced level.

Members that were hired on/after July 1, 2017, are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60 percent joint and survivor benefit, or a 100 percent joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5 percent of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

Legislation enacted in 2017 established the current COLA process. At each valuation date:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to the longterm inflation assumption of 2.25%.
- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:
 - The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
 - The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost-of-Living Adjustment.

Notes to the Financial Statements June 30, 2022

10. Pension Plan: (Continued)

c. Contributions:

Per SDCL 3-12, contribution requirements of the active employees and participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A Members, 6.0% of salary; Class B Judicial Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee's contribution. The School District's share of contributions to the SDRS for the years ended June 30, 2022, 2021, and 2020, were as follows:

	Year Ended	
	June 30,	 Amount
-	2022	\$ 1,520,786
	2021	\$ 1,386,544
	2020	\$ 1,291,617

d. <u>Pension Liabilities (Assets), Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions:</u>

At June 30, 2021, SDRS is 105.52% funded and accordingly has a net pension (asset). The proportionate shares of the components of the net pension liability (asset) of South Dakota Retirement System, for the School District as of the measurement period ending June 30, 2021 and reported to the School District as of June 30, 2022 are as follows:

Proportionate share of pension liability	\$ 141,547,075
Less proportionate share of net pension restricted for	
pension benefits	 149,364,610
Proportionate share of net pension (asset)	\$ (7,817,535)

At June 30, 2022, the School District reported an (asset) of (\$7,817,535) for its proportionate share of the net pension (asset). The net pension (asset) was measured as of June 30, 2021 and the total pension (asset) used to calculate the net pension (asset) was based on a projection of the School's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2021, the School District's proportion was 1.02079400%, which is an increase of .0379637% from its proportion measured as of June 30, 2020.

Notes to the Financial Statements
June 30, 2022

10. Pension Plan: (Continued)

For the year ended June 30, 2022, the School District recognized reduction of pension expense of \$(2,230,574). At June 30, 2022, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Difference between expected and actual experience	\$	280,670	\$	20,496
Changes in assumption	8	3,990,085	:	3,914,909
Net difference between projected and actual earnings on pension plan investments			1:	1,167,505
Changes in proportion and difference between District contributions and proportionate share of contributions		895		82,823
District contributions subsequent to the measurement date		1,520,786		
Total	\$ 10	0,792,436	\$ 1	5,185,733

\$1,520,786 reported as deferred outflow of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2023	\$ (1,486,220)
2024	(1,007,233)
2025	(279,049)
2026	(3,141,581)
Total	\$ (5,914,083)

Notes to the Financial Statements
June 30, 2022

10. Pension Plan: (Continued)

e. Actuarial Assumptions:

The total pension (asset) in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary increases	Graded by years of services, from 6.50% at entry to 3.00% after 25
	years of service.
Discount Rate	6.50% net of plan investment expense. This is composed of an
	average inflation rate of 2.25% and real returns of 4.25%.

Future COLAs 2.25%

Mortality rates were based on 97% of the RP-2014 Mortality Table, adjusted to 2006 projected generationally with Scale MP-2016, white collar rates for females and total dataset rates for males. Mortality rates for disabled members were based on the RP-2014 Disabled Retiree Mortality Table, adjusted to 2006 and projected generationally with Scale MP-2016.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the period of July 1, 2011 to June 30, 2016.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.). The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2021 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

Target Allocation	Long-term Expected Real Rate of Return
58.0%	4.3%
30.0%	1.6%
10.0%	4.6%
2.0%	0.9%
100.0%	•
	58.0% 30.0% 10.0% 2.0%

Notes to the Financial Statements June 30, 2022

10. Pension Plan: (Continued)

f. <u>Discount Rate</u>:

The discount rate used to measure the total pension (asset) was 6.5 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that matching employer contributions from will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension (asset).

g. Sensitivity of liability (asset) to changes in the discount rate:

The following presents the School District's proportionate share of net pension (asset) calculated using the discount rate of 6.50 percent as well as what the School's proportionate share of the net pension (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.5%) than the current rate:

	Current			
	1% Decrease	Discount Rate	1% Increase	
School District's proportionate share of				
the net pension (asset)	\$ 12,658,534	\$ (7,817,535)	\$ (24,439,337)	

h. Pension Plan Fiduciary Net Position:

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

i. Payable to the Pension Plan:

No payables were reported to the defined benefit plan at year end.

11. Postemployment Medical Plan:

Plan Description: Brandon Valley School District Medical Plan (BVSDMP) is a single employer defined benefit medical plan administered by the Wellmark Blue Cross Blue Shield Health Plan. BVSDMP provides medical and prescription drug insurance benefits to eligible retirees and their spouses at their cost. This is the same plan that covers the current employees and their families. SDCL 6-1-16 assigns the authority for establishing, administering, and amending plan provisions to the governing body. The health plan does not issue separately stated stand-alone financial statements.

Notes to the Financial Statements June 30, 2022

11. Postemployment Medical Plan: (Continued)

Funding Policy: The district funds the postemployment benefits on a pay-as-you-go basis. Because the district does not use a trust fund to administer the financing of other postemployment benefits, no separate financial statements are required.

Actuarial Methods and Assumptions: Where consistent with the terms of the plan, actuarial assumptions have utilized the assumptions for the South Dakota Retirement System (SDRS as provided in the June 30, 2021 Actuarial Valuation Report. See Note 10 – Pension Note.

Changes in Total OPEB Liability:

Beginning of Year Balance	\$ 4,050,788
Service cost	245,842
Interest	92,582
Effect on assumption changes or inputs	(689,478)
Differences between expected and actual experience	172,522
Benefit payments	 (138,993)
End of Year Balance	\$ 3,733,263

Sensitivity of liability (asset) to changes in the discount rate: The following presents a total OPEB liability of the District calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate of 4.09%.

		Current			
	1% Decrease	Discount Rate	1% Increase		
Total OPEB Liability	\$ 4,081,321	\$ 3,733,263	\$ 3,417,357		

For the year ended June 30, 2022, the School District recognized OPEB expense of \$520,145. At June 30, 2022, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Notes to the Financial Statements
June 30, 2022

11. Postemployment Medical Plan: (Continued)

	Oi	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience Changes in assumption	\$	760,531 445,007	\$	33,538 693,101	
Total	\$	1,205,538	\$	726,639	

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (revenue) as follows:

Year Ended June 30,	
2023	\$ 143,123
2024	104,518
2025	115,492
2026	67,888
2027	44,523
Thereafter	 3,355
Total	\$ 478,899

12. Joint Ventures:

The school district participates in the East Dakota Educational Cooperative, a cooperative service unit (co-op) formed for the purpose of providing education services to the member school districts.

The members of the co-op and their relative percentage participation in the co-op are as follows: Lennox 15%, Brandon Valley 65%, West Central 20%.

The co-op's governing board is composed of one representative from each member school district, who is also a school board member. The board is responsible for adopting the co-op's budget and setting service fees at a level adequate to fund the adopted budget.

The school district retains no equity in the net position of the co-op, but does have a responsibility to fund deficits in the co-op in proportion to the relative participation described above.

At June 30, 2022, this joint venture had total assets of \$4,643,821, total liabilities of \$3,373,578, and net position of \$1,270,243 in the general and special education funds.

Notes to the Financial Statements June 30, 2022

13. Risk Management:

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the period ended June 30, 2022, the School District managed its risks as follows:

Employee Health Insurance:

The School District purchases health insurance for its employees from a commercial carrier. Settled claims resulting from these risks have not exceeded the liability coverage the past three years.

Liability Insurance:

The School District purchases liability insurance for risks related to torts; theft or damage to property; and errors and omissions of public officials from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Workers' Compensation:

The School District purchases liability insurance for worker's compensation from a commercial carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Unemployment Benefits:

The School District has elected to be self-insured and retain all risk for liabilities resulting from claims for unemployment benefits. During the year ended June 30, 2022 claims of \$0 for unemployment benefits were paid.

14. Early Retirement Plan:

The School District maintains an early retirement plan for certified teachers and administrators. The plan is available to employees who choose early retirement within six years of attaining age 55 and have at least 15 years of continuous service with the district. Under the plan, the district will pay 100% of the employee's current annual salary, payable over two to five years as a contribution to the employee's 403(b). These amounts are shown as liabilities until paid for the amount approved in the early retirement agreement. The School District paid nine people \$304,779 for such benefits during the year.

15. Restatement:

Governmental Activities – Beginning net position is restated to decrease construction in progress amounts of \$848,194 as of June 30, 2021.

Notes to the Financial Statements June 30, 2022

16. Subsequent Events:

Management has evaluated subsequent events through the date of the independent auditor's report which is the date the financial statements were available to be issued.

Notes to the Required Supplementary Information
June 30, 2022

1. Budgets and Budgetary Accounting:

The School District followed these procedures in establishing the budgetary data reflected in the financial statements:

- a. Prior to the first regular board meeting in May of each year the school board causes to be prepared a proposed budget for the next fiscal year according to the budgetary standards prescribed by the Auditor General.
- b. The proposed budget is considered by the school board at the first regular meeting held in the month of May of each year.
- c. The proposed budget is published for public review no later than July 15 each year.
- d. Public hearings are held to solicit taxpayer input prior to the approval of the budget.
- e. Before October 1 of each year, the school board must approve the budget for the ensuing fiscal year for each fund, except fiduciary funds.
- f. After adoption by the school board, the operating budget is legally binding and actual expenditures of each fund cannot exceed the amounts budgeted, except as indicated in letter h.
- g. A line item for contingencies may be included in the annual budget. Such a line item may not exceed 5 percent of the total school district budget and may be transferred by resolution of the school board to any other budget category, except for capital outlay, that is deemed insufficient during the year. No amount of expenditures may be charged directly to the contingency line item in the budget.
- h. If it is determined during the year that sufficient amounts have not been budgeted, state statute allows adoption of supplemental budgets when moneys are available to increase legal spending authority.
- i. Unexpended appropriations lapse at year-end unless encumbered by resolution of the school board.
- j. Formal budgetary integration is employed as a management control device during the year for the General Fund and special revenue funds.
- k. Budgets for the General Fund and each major special revenue fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).

2. USGAAP/Budgetary Accounting Basis Differences:

The financial statements prepared in conformity with USGAAP present capital outlay expenditure information in a separate category of expenditures. Under the budgetary basis of accounting, capital outlay expenditures are reported within the function to which they relate. For example, the purchase of a new school bus would be reported as a capital outlay expenditure on the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balance, however in the Budgetary RSI Schedule, the purchase of a school bus would be reported as an expenditure of the Support Services-Business/Student Transportation function of government, along with all other current Pupil Transportation related expenditures.

Schedule of the School District Contributions to the South Dakota Retirement System

	2022	2021	2020	2019	2018	2017	2016	2015	2014
Contractually required contribution	\$ 1,520,786	\$ 1,386,544	\$ 1,291,617	\$ 1,207,885	\$ 1,152,343	\$ 1,110,128	\$ 992,200	\$ 953,641	\$ 878,632
Contributions in relation to the contractually required contribution	\$ 1,520,786	\$ 1,386,544	\$ 1,291,617	\$ 1,207,885	\$ 1,152,343	\$ 1,110,128	\$ 992,200	\$ 953,641	\$ 878,632
Contribution deficiency (excess)	\$	\$	\$	\$	\$	\$	\$	\$	\$
District's covered-employee payroll	\$ 25,346,375	\$ 23,209,036	\$ 21,526,887	\$ 20,231,865	\$ 19,205,685	\$ 18,502,119	\$ 16,532,799	\$ 15,893,966	\$ 14,643,806
Contributions as a percentage of covered-employee payroll	6.00%	5.97%	6.00%	5.97%	6.00%	6.00%	6.00%	6.00%	6.00%

^{**}GASB Statement No. 68 requires ten years of information to be presented in this table. However, until a full 10-year trend is compiled, the School District will present information for those years for which information is available.

Schedule of the School District's Proportionate Share of the Net Pension Liability (Asset) of the South Dakota Retirement System

	2022	2021	2020	2019	2018	2017	2016	2015
District's proportion of the net pension liability (asset)	1.0207940%	0.9828303%	0.9490116%	0.9252429%	0.9112160%	0.8716387%	0.8723260%	0.8390456%
District's proportionate share of net pension liability (asset)	\$ (7,817,535)	\$ (42,684)	\$ (100,569)	\$ (21,579)	\$ (82,694)	\$ 2,944,310	\$ (3,699,784)	\$ (6,044,980)
District's covered-employee payroll	\$ 23,209,036	\$ 21,526,887	\$ 20,231,865	\$ 19,205,685	\$ 18,502,119	\$ 16,532,799	\$ 15,893,966	\$ 14,643,806
District's proportionate share of the net pension liability (asset) as a percentage of its covered-employee payroll	-33.68%	-0.20%	-0.50%	-0.11%	-0.45%	17.81%	-23.28%	-41.28%
Plan fiduciary net position as a percentage of the total pension liability (asset)	105.52%	100.04%	100.09%	100.02%	100.10%	96.89%	104.10%	107.30%

^{*} The amounts presented for each fiscal year were determined as of the measurement date of the collective net pension liability (asset) which is June 30 of the previous fiscal year.

^{**}GASB Statement No. 68 requires ten years of information to be presented in this table. However, until a full 10-year trend is compiled, the School District will present information for those years for which information is available.

Notes to Required Supplementary Information
June 30, 2022

Changes from Prior Valuation

The June 30, 2021 Actuarial Valuation reflects no changes in actuarial methods from the June 30, 2020 Actuarial Valuation. One change in actuarial assumptions and one plan provision change are reflected and described below.

The details of the changes since the last valuation are as follows:

Benefit Provision Changes

Legislation enacted in 2021 reduced the minimum SDRS COLA from 0.5% to 0%. This change will impact the SDRS COLA only when inflation is very low or when a restricted maximum COLA of 0.5% is not affordable. The change had no impact on the current assets or liabilities of SDRS.

Actuarial Assumption Changes

The SDRS COLA equals the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0% (0.5% prior to 2021) and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%. That condition existed as of June 30, 2020 and the July 2021 SDRS COLA was limited to a restricted maximum of 1.41%. As of June 30, 2021, the FVFR assuming the COLA is equal to the baseline COLA assumption is greater than 100%. The July 2022 SDRS COLA will equal inflation, between 0% and 3.5%. For the June 30, 2020 Actuarial Valuation, future COLAs were assumed to equal the restricted maximum COLA of 1.41%. For this June 30, 2021 Actuarial Valuation, future COLAs are assumed to equal the baseline COLA assumption of 2.25%.

The change in the COLA assumption increased the Actuarial Accrued Liability by \$1,135 million, or 8.9% of the Actuarial Accrued Liability based on the 1.41% restricted maximum COLA.

Actuarial assumptions are reviewed in depth periodically, with the next experience analysis anticipated before the June 30, 2022 Actuarial Valuation and any recommended changes approved by the Board of Trustees are anticipated to be first implemented in the June 30, 2022 Actuarial Valuation.

Actuarial Method Changes

No changes in actuarial methods were made since the prior valuation.

Schedule of Changes in Total OPEB Liability
June 30, 2022

Service cost	\$ 245,842
Interest on total OPEB liability	92,582
Effect on assumption changes or inputs	(689,478)
Differences between expected and actual experience	172,522
Benefit payments	 (138,993)
Decrease in net OPEB obligation	 (317,525)
OPEB obligation - beginning	 4,050,788
OPEB obligation - ending	\$ 3,733,263

Schedule of Expenditures of Federal Awards For the Fiscal Year Ended June 30, 2022 (Continued)

Note 1: Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the School District under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

Note 2: Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The School District has elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance

Note 3: Federal Reimbursement

Federal reimbursements are not based upon specific expenditures. Therefore, the amounts reported here represent cash received rather than federal expenditures.

Note 4: Federal Major Programs

This represents a Major Federal Financial Assistance Program
