LESSON/UNIT: Motor

SUBJECT/GRADE: Jr. Kindergarten

DATES: 01/25-1/29

What do students need to do?

[Link to BV Week at a Glance instructional video.](#)

**These exercises are an introduction to the activities we use in the classroom for our Boost Up program. You will notice that we are repeating the same exercises each day. To create success in this program, repetitive exercises are imperative. The activities only take a minute but you will notice over time, how your child becomes stronger and more balanced with repetitive instruction. We will continue to add more exercises every couple of weeks.**

## Monday (01/25):

- Watch the BV Week at a Glance instructional video.
- Helicopter Exercise:** Mark a 1 foot by 1 foot box on the floor. This box is their “launchpad” area. Encourage them to stay within their launchpad while spinning. Have your child practice helicopter spins. Arms shoulder length extended, looking at finger tips and turning in one direction for 15 seconds. After the first 15 seconds, have your child bend over and hold their knees while counting to 10. Then have them switch and spin the other way for another 15 seconds. (HPD-4a, HPD-2b)
- Balance Beam:** Walk on a balance beam, painters tape, or yard stick, and walk heel to toe for 6 feet. Practice walking while focusing on a visual target on the wall. Encourage your child to not look at their feet while walking on the balance beam. (HPD-4a)
- Superman Exercise:** Mark a 1 foot by 1 foot box on the floor. This box is their superman pad on the floor. This will help your student maintain their position on the floor. Lying flat on their stomach, have the student raise their chin off of the floor, bring her extended arms overhead close to her ears, and lift their straightened legs off the floor. Their body should be taut, only touching the floor at the stomach. Ask the student to hold this position for 20 seconds. Repeat 3 times. (HPD-4a, HPD-2b)
- Alligator Crawl:** Students will crawl on their stomach across the floor or a mat using the opposite arm and leg simultaneously. For example, the student would move the left arm and right leg and then the right arm and left leg. Make sure they keep their chin tucked and their hands flat on the ground while crawling.(HPD-4a, HPD-2b)
- Creep Track:** Have the student creep on hands and knees using the opposite arm and leg simultaneously. The students should move at a slow and even pace. Using the letter flashcards, place the uppercase and lowercase Aa, Bb, Cc, Dd, Ee, Ff, Gg, Hh cards on the ground and have your child name the letters as they creep past them. (HPD-4a, HPD-2b)
- Giraffe Stretch:** Have the student get down on the floor on their hands and knees. The knees should be directly below the hips, feet touching the floor in back, and the hands directly under the shoulders, making a nice square “cube” out of her body. Without moving their hands or knees on the ground have the student lean forward as far as they can go and then backward in a rocking motion. Repeat this for 1 minute. (HPD-4a, HPD-2b)
- Popcorn Exercise:** Have the student lay flat on their back and ask them to bring their knees to their chest, wrapping their arms around their legs. They should then lift their head, trying to keep their eyes close to their knees. Ask the student to hold this position for 20 seconds and repeat 3 times. For fun release movement, they may POP out with their body straight and taut, feet together, and arms moving above their head to a flat position on the floor = “Popcorn”. (HPD-4a, HPD-2b)

	<ul style="list-style-type: none"> <li><input type="checkbox"/> <b>Cross Pattern Walking:</b> Place a sticker or a dot using a marker on the top of your child’s right hand and left knee. Have the student slap the hand with the sticker or dot onto the knee with the sticker while they walk forward. Have the students lift their knees waist high and visually follow their hands. (HPD-4a, HPD-2b)</li> <li><input type="checkbox"/> <b>Holiday Hop Game:</b> Using the action cards provided, have your child hop around to holiday music and when the music stops they have to perform the action that they land on. (HPD-2b, HPD-2d, HPD-4c)</li> <li><input type="checkbox"/> <b>Snowman Fine Motor Play:</b> Using any plastic bottle with a wide opening, have your child pick up pom pom balls or cotton balls with tweezers or using their pointer finger and thumb, place the item in the plastic bottle (Bottle Examples: coffee creamer bottle, gatorade bottle, etc). (HPD-5a, HPD-5b)</li> <li><input type="checkbox"/> <b>Wagon Wheels:</b> Using the wagon wheel worksheet. Place 4 sets of matching stickers around the wheel. Have your child cover one eye and use the other hand to trace from one sticker to the matching sticker. If you do not have stickers, you may draw matching colored dots around the wagon wheel worksheet. (HPD-5a)</li> <li><input type="checkbox"/> <b>100th Day Fitness Fun:</b> Follow the fitness sheet exercises to complete 10 different exercises and celebrate the 100th day of school. (HPD-4a, HPD-2b)</li> </ul> <p><b>Tuesday (01/26):</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Choose TWO activities from those described above. <u>Try our 100th Day Fitness Fun exercise!</u></li> </ul> <p><b>Wednesday (01/27)</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Choose TWO activities from those described above. <u>Try our 100th Day Fitness Fun exercise!</u></li> </ul> <p><b>Thursday (01/28):</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Choose TWO activities from those described above. <u>Try our 100th Day Fitness Fun exercise!</u></li> </ul> <p><b>Friday (01/29):</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Choose TWO activities from those described above. <u>Try our 100th Day Fitness Fun exercise!</u></li> </ul>
