<u>video.</u>	Tuesday (3/30):
	☐ Egg Fill Up: Write them numbers 1-10 on the outside of plastic eggs or plastic cups, and have your child place that amount of jelly beans or other candy inside the egg/cup. (CD-4h, CD-7c, HPD-5b, HPD-5c CD-4d, CD-6)
	Wednesday (3/31):
	Egg Order: Using the plastic eggs again, write the numbers 1-10 on a sheet of paper in each egg (10 eggs). Hide the eggs around your home and have your child hunt for the eggs. Once they find all the eggs and numbers, place them in order from 1 to 10. (CD-4h, CD-7c, HPD-5b, HPD-5c CD-4d, CD-6)
	Thursday (4/01):
	Jelly Bean Graphing: Using jelly beans or any other type of candy you have around the home, have your child organize the jelly beans into groups of the same color. Once they are all organized, have your child count how many jelly beans of each color they have and write them on a sheet of paper. Have them circle which color had the most amount. (CD-4h, CD-7c, HPD-5b, HPD-5c CD-4d, CD-6)

lessons cover?	CD-6c: Sorting groups of up to 10 objects using two attributes.
	CD-8g: Sort objects or materials by attributes and describe the attributes used to sort (size,
	color, shape, sound)
	CD-6d: Arrange up to 5 objects in order according to characteristics or attributes, such as
	height
	CD-5b: Name basic shapes and describe their characteristics using descriptive geometric
	attributes.
	CD-5c: Recognize a shape remains the same shape when it changes positions.
	CD-4i: Use and understand the term "first" through "fifth" and "last" in their play and daily activities.

	CD-4h: Recognize numerals up to 10 and attempt to write them during play and daily activities.
	CD-4d: Count the number of items in a group of up to 10 objects and know that the last
	number tells how many. CD-7c: Use drawing and other concrete materials to represent an increasing variety of
	mathematical ideas.
	CD-6f: Identify, repeat, extend, and describe a simple pattern.
	HPD-5b: Display strength and control while using a variety of tools and materials including
	scissors, pencils, crayons, small toys, spray bottles, and hole punchers.
	HPD-5c: Draw and write figures with more detail (faces with features, letters, or letter-like
	forms).

	approximations of letters to attempt to write some familiar words and communicate a
	message.
	CLL-9c: Independently engage in writing behaviors for various purposes (write symbols or
	letters for names, use materials at writing center, write lists with symbols/letters in pretend
	play, write messages that include letters or symbols).
	CLL-10a: Use a variety of writing tools and materials with increasing precision.
	CLL-4c: Listen to and discuss increasingly complex story books, information books, and
	poetry.
	CLL-6c: Run their finger under or over print as they pretend to read text, with prompting and
	support from an adult.
	CLL-10d: Try to connect the sounds in spoken words with letters in the written word. (Write
	"M" and say, "This is Mommy").
	CLL-8a: Demonstrate knowledge of the Alphabetic Principle, the concept that the sounds of
	speech can be represented by one or more letters of the alphabet.
	CLL-7d: Discriminate sounds in spoken language, recognizing rhyming sounds and the first
	sounds in some words.

LESSON/UNIT: Motor SUBJECT/GRADE: Jr. Kindergarten DATES: 3/29-4/02

What do students need to do? Link to BV Week at a Glance instructional video.	These exercises are an introduction to the activities we use in the classroom for our Boost Up program. You will notice that we are repeating the same exercises each day. To create success in this program, repetitive exercises are imperative. The activities only take a minute but you will notice over time, how your child becomes stronger and more balanced with repetitive instruction. We will continue to add more exercises every couple of weeks.
	Monday (3/29):
	☐ Watch the BV Week at a Glance instructional video.
	Review Week! Choose 2 exercises each day to review!
	Helicopter Exercise: Mark a 1 foot by 1 foot box on the floor. This box is their "launchpad" area. Encourage them to stay within their launchpad while spinning. Have your child practice helicopter spins. Arms shoulder length extended, looking at finger tips and turning in one direction for 15 seconds. After the first 15 seconds, have your child bend over and hold their knees while counting to 10. Then have them switch and spin the other way for another 15 seconds. (HPD-4a, HPD-2b)
	☐ Balance Beam: Walk on a balance beam, painters tape, or yard stick, and walk heel to toe for 6 feet. Practice walking while focusing on a visual target on the wall. Encourage your child to not look at their feet while walking on the balance beam. (HPD-4a)
	□ Superman Exercise: Mark a 1 foot by 1 foot box on the floor. This box is their superman pad on the floor. This will help your student maintain their position on the floor. Lying flat on their stomach, have the student raise their chin off of the floor, bring her extended arms overhead close to her ears, and lift their straightened legs off the floor. Their body should be taut, only touching the floor at the stomach. Ask the student to hold this position for 20 seconds. Repeat 3 times. (HPD-4a, HPD-2b)
	☐ Alligator Crawl: Students will crawl on their stomach across the floor or a mat using the opposite arm and leg simultaneously. For example, the student would move the left arm and right leg and then the right arm and left leg. Make sure they keep their chin tucked and their hands flat on the ground while crawling.(HPD-4a, HPD-2b)
	☐ Creep Track: Have the student creep on hands and knees using the opposite arm and leg simultaneously. The students should move at a slow and even pace. Using the letter flashcards, place the uppercase and lowercase Aa, Bb, Cc, Dd, Ed, Ff, Gg, Hh cards on the ground and have your child name the letters as they creep past them. (HPD-4a, HPD-2b)
	☐ Giraffe Stretch: Have the student get down on the floor on their hands and knees. The knees should be directly below the hips, feet touching the floor in back, and the hands directly under the shoulders, making a nice square "cube" out of her body. Without moving their hands or knees on the ground have the student lean forward as far as they can go and then backward in a rocking motion. Repeat this for 1 minute. (HPD-4a, HPD-2b)
	□ Popcorn Exercise: Have the student lay flat on their back and ask them to bring their knees to their chest, wrapping their arms around their legs. They should then lift their head, trying to keep their eyes close to their knees. Ask the student to hold this position for 20 seconds and repeat 3 times. For fun release movement, they may

	POP out with their body straight and taut, feet together, and arms moving above their head to a flat position on the floor = "Popcorn". (HPD-4a, HPD-2b)
	☐ Cross Pattern Walking: _Place a sticker or a dot using a marker on the top of your
	child's right hand and left knee. Have the student slap the hand with the sticker or dot onto the knee with the sticker while they walk forward. Have the students lift their knees waist high and visually follow their hands. (HPD-4a, HPD-2b)
	☐ Holiday Hop Game: Using the action cards provided, have your child hop around to holiday music and when the music stops they have to perform the action that they land on. (HPD-2b, HPD-2d, HPD-4c)
	☐ Snowman Fine Motor Play: Using any plastic bottle with a wide opening, have your child pick up pom pom balls or cotton balls with tweezers or using their pointer finger and thumb, place the item in the plastic bottle (Bottle Examples: coffee creamer bottle, gatorade bottle, etc). (HPD-5a, HPD-5b)
	■ Wagon Wheels: Using the wagon wheel worksheet. Place 4 sets of matching stickers around the wheel. Have your child cover one eye and use the other hand to trace from one sticker to the matching sticker. If you do not have stickers, you may draw matching colored dots around the wagon wheel worksheet. (HPD-5a)
	☐ Valentine Visual Tracking: Using the heart zig zag sheets provided, have your child close one eye and track from left to right (heart to heart). (HPD-5a)
	■ Dental Health Exercise: Using a balance beam or tape on the group and toothpaste tubes and toothbrushes, have your child walk on the balance beam or tape and pick up toothpaste and toothbrushes off of the ground as they walk along balancing. (HPD-4a)
	Pot of Gold Exercise: Using the template provided and tweezers or tongs, have your child place pom pom balls, lucky charms cereal, or anything small in the pot of gold. Draw a number out of the deck of cards to place that many in the pot, place the items in the pot using the tweezers, and write that number on a piece of paper.
	☐ Throwing Practice: Using a ball or a pair of socks, have your child practice throwing a ball at a target on the wall outside or inside and practice stepping and throwing overhand with the opposite hand and foot (right hand and left foot, left hand and right foot). Try to hit the target 10 times.
	Tuesday (3/30):
	☐ Choose TWO activities from those described above. Wednesday (3/31)
	☐ Choose TWO activities from those described above. Thursday (4/01):
	☐ Choose TWO activities from those described above. Friday (4/02):
