

Brandon Valley Educational Philosophy

The Board will provide an educational environment that promotes and enhances learning as a life-long endeavor. In addition, the Board believes that education is not just the development and refinement of mental capacity but a process that assists the students in meeting their physical, social, aesthetic, and emotional requirements.

The board will strive to provide stimulation and assistance so that each student develops in accordance to their individual abilities, interests and potential. The responsibility of the school, therefore, is to help guide the individual in the many and varied educational experiences so that they can develop into a wholesome, happy and productive human being.

The Board recognizes the importance of the home as an influence upon the student and believes that cooperation between the teacher and the parent is necessary in the development of a student's integrated personality.

The total staff of the school system constitutes an immeasurable and lasting force in the development of the student. The teacher is the most significant influence in the school and must, therefore, possess and demonstrate dedication, enthusiasm and sensitivity. It is primarily the teacher's responsibility to provide the learning environment in the school that fosters maximum student growth and reflects individual differences.

It is further realized that mutual rapport among the home, student, staff, administration, School Board and total community is necessary to implement this policy.
