A GUIDE FOR SUBSTITUTES

INTRODUCTION

Welcome to the Brandon Valley School District #49-2! We are pleased that you are interested in being a substitute in our district. The following information is provided to assist you in becoming acquainted with the procedures for substituting. We would like to stress to you the following expectations:

First and most importantly, we expect our substitutes to TEACH. You assume a demanding and critical role in the education of students in the Brandon Valley School District. The cumulative effect of substitute teachers over the course of a year is very significant to the educational process. You are an important person to us and we expect you to do your best.

We hope that our substitutes can become a visiting member of the staff where they work. Please accept our invitation to participate in appropriate activities and be in the lounges throughout the district. Please ask regular staff members to assist you whenever the need arises. If you need help, just ask!

Prepare for the day's work ahead by arriving on time and remaining at school until the professional day has been observed.

Please check in and check out of the office at each school where you are to substitute.

Communicate with the regular teacher by written notes and with building administrators verbally on questions or about the day's activities. A substitute's responsibilities include the grading of student's assignments unless specific directions are left by the classroom teacher or building administrator.

Be a good supervisor by assisting in hall, lunch, and other appropriate supervision. Performing the responsibilities of regular staff is expected and is much appreciated by your co-workers and administrators.

Ask your building administrator for assistance in determining building procedures or for specific information not provided within this booklet.

When discipline is a concern, ask for assistance early. Do not wait until the end of the day to report problems or seek assistance. We expect our students to observe disciplinary standards and our staff to ensure a quality learning environment. We would like to re-emphasize the important role our substitutes assume in the Brandon Valley School District. We hope that you feel positively about yourself and the daily positions you accept. Please observe a positive approach in seeking information and finding solutions to problems. We shall be most grateful for your assistance and your cooperation.

Substitute teachers are vital to the successful delivery of educational services to the pupils of any school community. We are fortunate in Brandon Valley to have a group of dedicated educators in the role of substitutes who share their talents with the children in our schools.

These few pages will provide you, the substitute, with important information pertaining to your work in Brandon Valley School District. Further information is available through the district's Business Office.

EDUCATIONAL PHILOSOPHY

The Board will provide an educational environment that promotes and enhances learning as a life-long endeavor. In addition, the Board believes that education is not just the development and refinement of mental capacity but a process that assists the students in meeting their physical, social, aesthetic, and emotional requirements.

The board will strive to provide stimulation and assistance so that each student develops in accordance to their individual abilities, interests and potential. The responsibility of the school, therefore, is to help guide the individual in the many and varied educational experiences so that they can develop into a wholesome, happy and productive human being.

The Board recognizes the importance of the home as an influence upon the student and believes that cooperation between the teacher and the parent is necessary in the development of a student's integrated personality.

The total staff of the school system constitutes an immeasurable and lasting force in the development of the student. The teacher is the most significant influence in the school and must, therefore, possess and demonstrate dedication, enthusiasm and sensitivity. It is primarily the teacher's responsibility to provide the learning environment in the school that fosters maximum student growth and reflects individual differences.

It is further realized that mutual rapport among the home, student, staff, administration, School Board and total community is necessary to implement this policy.

EVALUATION OF SUBSTITUTES

Substitute teachers, like all other teachers in a particular school, are evaluated by the building administrator. If you are in an assignment for five days or longer, your performance may be evaluated. The principal or assistant principal may choose to evaluate prior to the five-day limit.

After the evaluation is completed, the building administrator will confer with you about it, if possible. If it is not possible for the building administrator to visit with you, the evaluation will be sent to you, and you may schedule a conference with an administrator, if you choose. One copy of the evaluation will be included in your permanent file. If you disagree with the evaluation, you may include a letter so stating in your file.

SUGGESTIONS FOR SUBSTITUTE TEACHERS

1. Develop a "survival kit" of plans and materials for use when time may be needed to study the regular teacher's plans, when the plans left by the regular teacher do not cover the entire period or in other emergency situations.
2. Be positive in reporting experiences in any school. Never "carry tales."
3. Ask for help when needed. It is a compliment to those who can help you.
4. If possible, do not rearrange or alter in any way a regular teacher's room, plans or routine.
5. Leave teacher evaluation to the building administrator.
6. Dress appropriately and be well groomed.
7. Teach as well as you know how. Your reward will come in the avoidance of stress, friendship with schools staffs and many return engagements.

REPORTING CHILD ABUSE

Any teacher or other school employee who suspects that a student under 18 years of age has been neglected or physically abused (including sexual or emotional abuse) by a parent or other person, will report orally or in writing this information to the building principal or superintendent. The principal or superintendent or designee should immediately report this information to the state's attorney; or the department of social services; or the county sheriff; or the city police. If the principal or superintendent does not confirm to the teacher or other employee within 24 hours that action has been initiated, the employee will report this information directly to the proper authorities.

The report will contain the following information: name, address, and age of student; name and address of parent or caretaker; nature and extent of injuries or description of neglect; and any other information that might help establish the cause of injuries or condition.

School employees, including administrators, will not contact the student's family or any other persons to determine the cause of the suspected abuse or neglect. It is not the responsibility of the school employees to prove that the student has been abused or neglected, or to determine whether the student is in need of protection, but only to report his suspicion of abuse or neglect.

Anyone who participates in making a report in accordance with the law and in good faith is immune from any civil or criminal liability that may otherwise arise from the reporting, or from any resulting judicial proceeding, even if the suspicions are proved to be unfounded.

Any personal interview or physical inspection of the student should be conducted in a considerate, professional manner. Information or records concerning reports of suspected abuse or neglect are confidential. The release to persons other than those provided by law is punishable by a \$1,000 fine, one year in jail or both. Failure to make a report where abuse or neglect is suspected is subject to the same punishment.

Copies of this policy will be distributed by the superintendent or designee to all school employees at the beginning of each school term, and to new employees when they begin employment if at a different time than the beginning of the school term.

Each substitute is responsible for keeping the district advised of his/her current address and telephone number. Every substitute must resubmit an application form for the following school year. Each substitute has reasonable assurance that he/she will perform in the same capacity in the following school year unless informed that the substitute's performance is unsatisfactory. Substitutes who are retained on the substitute list for the following year are not eligible for unemployment compensation benefits during the summer months.

Many substitutes are subbing in the hope of obtaining a full-time position. While subbing is not a guarantee, it does provide an opportunity to demonstrate your skills and become more familiar with the district. If you are interested in full-time employment, be sure to submit a letter of application, transcripts and credentials to the Office of the Superintendent of Schools.
